

K-Love provides a great service to our community by providing commercial Christian music and news 24 hours a day. I am a contributor to K-Love and it serves our family by providing meaningful music that our entire family can listen to safely. It also lifts me up many times when I am down.

It would be a great tragedy for our family and many other families if the K-Love station were to ever be taken off the air by the changes that are being discussed. They are a very important station for our community..

K-love serves the public service in many different ways and are a vital member of our community and I want to make sure they stay on the air on the stations they are on now.

thank you for your time.

Jim Crenshaw
